This is the fourth office action for application number 10/733,241, Outer Mirror Assembly, filed on December 12, 2003.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 14, 2005 has been entered.

Election/Restrictions

Claims 3-10 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on July 19, 2004.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent number 4,123,030 to Johansson.

Johansson '030 discloses an outer mirror assembly (figure 1) comprising a mirror base (1, generally) including only one extension and inherently adapted to extend outwardly from a side of a vehicle body, a mirror housing (rim around 2) having an upper surface and fixed to the only one extension only at the upper surface inherently adapted to form a space (see figure 2, there is a space) between the vehicle body and the mirror housing, and a rear view mirror (2) disposed in the mirror housing, wherein the mirror base comprises a mounting plate (33) which inherently could be attached to a forward end of a side window of the vehicle body.

Response to Arguments

Applicant's arguments filed May 17, 2005 have been fully considered but they are not persuasive.

Applicant's arguments with respect to claims 1-2 have been considered but are moot in view of the new ground(s) of rejection.
